

How Does Your Safety NET Live Up To Its Name?

Our patients know that safety and dependability go hand-in-hand. That is why we strive to make your ride the safest and most reliable form of transportation available. We realize that it is not only the road that leads us to our destination, but our commitment to safety.

Every team member of Your Safety NET is trained in CPR as well as First Aid administration. Patient transporters are taught defensive driving techniques, patient assistance, and emergency procedures. Through education and experience, our organization aims to raise the bar in an industry where safety is of the utmost importance.

We want the level of compassion that we have for our patients to be felt every time we do our job. From the interior of our vehicles to the waiting room, it is our true aspiration that you, the patient, know that you are in the very best hands.

My Ride, My Choice

When it comes to NEMT, not many of our patients realize they have a choice when it comes to choosing who they ride with. In reality, most patients prefer riding with the same provider for most, if not all of their appointments. It is our hope that you request to ride with us everytime!

"Your Safety NET is the most pleasant transportation company I have ever seen. In my experience with other companies, no one compares to what they will do for you. I would recommend them to anyone who needs a ride to their appointment," acclaims Steven from Webster Groves!

Reasons To Request Us!

- * Safety
- * Reliability
- * Assurance
- * Quality
- * Comfort
- * Patience

Where Would You Like To Go?

Your Safety NET also provides transportation to places such as airports, grocery stores, pharmacies, court appearances, train or bus stations, special occasions, family outings, sporting events & more! These trips are scheduled and dispatched through our specialized transportation network so we can keep our costs as low as possible. Our efficiency in NEMT led the foundation that allowed our transportation services to be offered in everyday situations, and we would like to take you to places other than those that are deemed medically necessary.

Scheduling your next trip should be easy and we want to show you just how simple we make it! Our Ride Line is our dedicated phone line that allows patients to call in and request their ride. Our Ride Mail is our dedicated email that allows patients to schedule their ride with the click of a mouse. The only information that is needed includes your name, date-of-birth, pick-up and drop-off addresses and any special needs. To find out about this and any of our other services, please visit www.yoursafetynet.org!
